Application

The zeus burnishing tool is an all-rounder for all classic applications when burnishing surfaces – whether on cylindrical, conical, convex or concave surfaces. It is also possible to work on plane surfaces.

Burnishing Tool SET 510

Features

- n Fixed tool head
- n Can be adjusted up to $\pm 10^\circ$ thanks to integrated setting options in the shaft
- n To burnish ripples with cylindrical surfaces – limited cones and radii

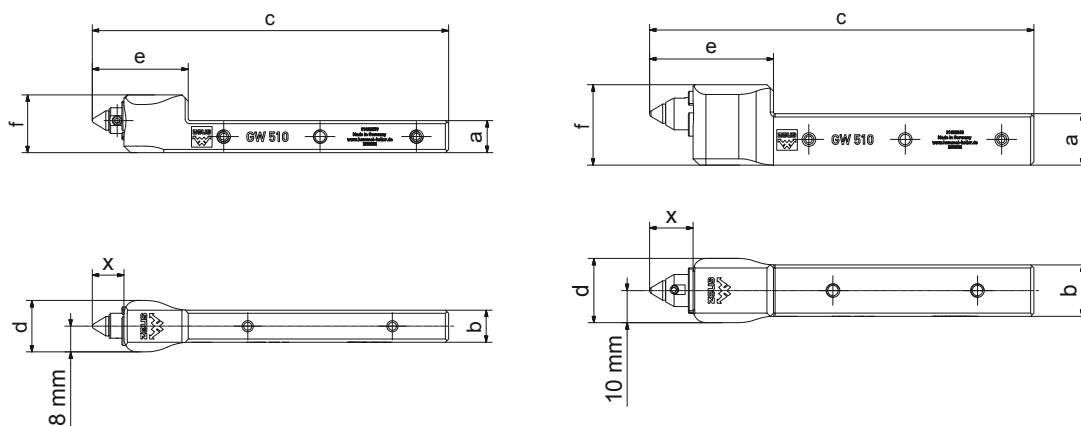

Recommendations

- n Burnishing speed up to 200 m/min
- n Feed rate up to 0.2 mm/U
- n Workpiece measurement of 0.01 mm (~Rz 10) and 0.02 mm (~Rz 20)
- n It is recommended to use a cooling lubricant
